New year brings new procedures. We will provide a small allowance for the use of your personal cellphone. I don't think we all want to carry two and are using our own cellphones to communicate, either with each other or with others in our network, and I want to acknowledge that. The allowance is \$20/month. Please submit a check request at the start of each month and a check will be given to you for that amount.

I urge you to try to have our people call the Senior Center and not your personal cellphones, as some will see that as an anytime thing, even when you are on vacation and should be having a break from here. You can block your number when calling them by using *67 before dialing the number, but so far I have not found an easy way to block your number if sending a text. If any of you have a solution, please let me know and we can get that out to everyone.

Thanks!
